

Colden provides diverse biosafety services to industrial, academic, and research organizations. We develop written programs and conduct audits in accordance with guidelines from the Centers for Disease Control and Prevention (CDC) and World Health Organization (WHO). We also provide biosafety laboratory and vivaria design consulting services.

## *Colden's Services*

- Development of written biosafety programs
- Design recommendations, including physical plant features, for BSL1 and BSL2 laboratories
- Work protocol reviews, including assessing appropriate biosafety levels
- Development and implementation of decontamination and waste-disposal procedures
- Training to augment written programs
- Development of cradle-to-grave tracking systems for in-house biological agents
- Assistance in reporting as required by federal mandate (Public Law 107-188)
- Devising and executing risk communication programs
